Junior Consultant - Mauritania

Be the energy behind change. Join ABL Group.

ABL Group is a leading global independent energy and marine consultant working in energy and oceans to de-risk and drive the energy transition across the renewables, maritime, and oil and gas sectors, offering the deepest pool of expertise across marine and engineering disciplines in more than 300 locations globally.

We have an exciting opportunity for a **Junior Consultant** to join our team of experts in a dynamic and growing company that is driving the energy transition. This is a challenging job with lots of opportunities to develop yourself and pursue your career ambitions within energy and marine consultancy.

What you will be doing.

As our **Junior Consultant**, you will be part of our specialist team involved in vessel surveys, technical advice, and consultancy services as well as contribute to the development of the marine and offshore operations. Your training will develop you to:

- Perform consultancy services, Marine Warranty, to clients in the offshore oil and gas sector as per our business requirements.
- Conduct inspections and audits (Vessel suitability Surveys, Condition, and Pre-purchase surveys) onboard ships as required by the client.
- Conduct inspections (Hull and Machinery and P&I) of equipment and materials for ships and floating structures and report on the findings as required by the client.
- Take part in technical and procedural reviews and marine study reports covering marine and offshore projects as well as site attendance.
- Oversee transportation & installation, and other marine operations as required.
- Prepare and submit reports in English based on observations and findings.

The role will be based in Mauritania and/or Senegal, and the incumbent has the right to work and reside in Mauritania and Senegal. Flexibility and ability to travel within Africa and Europe, with some offshore attendance required.

What we are looking for.

We are looking for driven and solution-oriented professionals with sound technical skills and good decision-making capabilities. The successful candidate will have good communication and interpersonal skills, and the ability to deal effectively with multiple issues and assignments simultaneously. In addition, you:

- Hold a relevant university engineering degree, or equivalent, related to the marine or offshore industry; or equivalent combination of relevant training and sea-going experience.
- Should be capable of working independently as well as part of a team.
- Must be proficient in French and English.

- Should have excellent English writing skills to deliver quality attendance, vessel survey and technical reports.

What is in it for you?

The successful candidate will join a small dynamic team of Project Managers & Engineers and will be working with International Projects & Clients. Being a part of a small team, you will be working with the highest calibre of people, and this will be part of an exciting journey in a dynamic environment.

You can learn more about our team and what we do here: <https://abl-group.com/>

Join us and grow with us.

We will be conducting interviews continuously and reserve the right to take down the advert when we have found the right candidate.

For your application to be taken into consideration, please be advised, that you must submit your application along with your CV and a letter of motivation in English via the link provided on this page.

We look forward to receiving your application.
